

# SPAMMERS

Oh God, Do You Have Mail!

## DEMONSTRATION

If you're on the Internet (and we know you are), there's no better way to make money than by sending out unsolicited commercial e-mail. You know the ones. "Use Your Toaster to Lay Golden Eggs!" they promise, or "Get Thin By Watching Free Cable TV!"

As a hapless net.citizen, you have no recourse. But in SPAMMERS, the game of Internet Junk Mail, you take the Net into your own hands and

reverse the roles. You own the companies and you operate the Scams. Using technology like Enormous Monitors and Little Black Boxes, you send Mailings to your own Proprietary Lists, running scams from "Hot-Models-Want-You-To-Be-A-Travel-Agent.com" to "Built by Prisoners, Inc." Make enough money, and you win!
